CAPE NEGRO

Launch Rating Easy.

Launch Description Gravel launch

The haulover is located here, on the opposite side of the road. This narrow canal is said to have been completed in the early 1800's. Before this time the natives used this as a portage between Port La Tour and Cape Negro Harbour. This canal can still be used by small boats except on very low tides Connecting Port LaTour and Cape Negro Harbour.

Amenities at site None. Parking.

Arriving by land Take exit 28 from 103 highway Clyde River drive until you come to Cape Negro turn onto Blanche Road. Blanche Road is gravel.

Arriving by sea Paddling from Port La Tour or Cape Negro Island the Blanche Peninsula is visible. On a clear day the Salvages Lighthouse or Halfmoons Lighthouse is visible.

Owner Public. Municipality of Barrington

NEARBY SERVICES

Barrington Passage has full services. Cape Sable Island has accommodations, grocery store, bank and gas station.

Cape Sable Island is the most southerly tip of land in Nova Scotia known primarily for the lobster and fishing industry. In the year 2000 it was designated as an Important Bird Area.

Because of the importance of the fishing and the lobster industry on Cape Sable Island there are five government wharves that have very good public launch sites and two other launch sites one at Daniels Head Wharf and The Hawk.

Instead of listing them all separately I will give the names and GPS Reading of each launch site. In case of an emergency you will know where you may exit or launch.

CLAM POINT

Cripple Creek Wharf

NEARBY SERVICES

None. Whispering Wave Cottages on Black Point Road in Ingomar.

PADDLING SHELBURNE COUNTY

compiled by P. Hudson
for Canoe Kayak Nova Scotia

Boat Stages where fishermen tied up their boats before Government Wharves

Arriving in Shelburne County your first glimpse of the ocean, beautiful and diverse coastline makes the paddler want to launch their kayak and explore. Our coastline has many white sand beaches and islands that offer shelter from a sudden breeze or to stop for a swim, picnic or rest. While paddling you will come upon quaint fishing villages, some still give us a glimpse of the past. Offshore islands provide interesting destinations with some opportunities for camping

Fog along the coast is often present during the summer months, often referred to as thick as pea soup. Paddlers should never travel without a good map, compass and GPS – and know how to use them. Always file a trip plan with a trusted friend, or the local RCMP.

Shelburne County's mainly fishing and lobstering industry makes for many excellent launch sites available because of the Government Wharves with slipways, concrete ramps, floating docks or gravel launching.

Please respect the fishermen by parking away from the launch sites and wharves. There is usually plenty of parking available. The wharves are busy most of the year with the men working on their boats or going fishing. If you have any questions about the area you are going to paddle, always ask a fisherman!

If you plan to camp, please use existing camping spots and practice no trace camping. Remember, the area is tidal, so pull boats up well past high tide mark.

ISLANDS PROVINCIAL PARK

Launch Rating Easy

Launch Description Public concrete boat ramp within Islands Provincial Park. If you are camping at the park you can launch your kayak right from your campsite if you are camped on the waterfront. From here you are on the West side of Shelburne Harbour and have many paddling options depending on your time.

Amenities at site None. Parking and garbage containers.

Arriving by land Travelling west on highway 103 take exit 26 to Shelburne onto route 3. Turn right by Spencer's Garden Centre, left at sign for Islands Park.

Arriving by sea At the head of Shelburne Harbour across from Historic Town of Shelburne.
